

Principal Functioning Agents

Ammonium sulfate, glycerol, phosphoric acid.....	35.0%
Constituents ineffective as spray adjuvants.....	65.0%
Total.....	100.0%

*All ingredients are exempt from the requirements
of a tolerance as specified in 40 CFR 180.*

Manufactured For

McGregor Company
P.O. Box 740
Colfax, WA 99111

NOT FOR AQUATIC USE

WA Reg. No. 39303-05001

McGREGOR SPRAY GUARD™

Water Conditioning and Deposition Aid

**KEEP OUT OF REACH OF CHILDREN
WARNING**

Causes skin irritation.
Causes serious eye irritation.

Precautionary Statements

Do not breathe mist, vapors, or spray. Wash thoroughly after handling. Wear protective gloves, eye, and face protection. If swallowed: Rinse mouth. Do not induce vomiting. If on skin (or hair): Remove/take-off immediately all contaminated clothing. Rinse skin with water/shower. If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If in eyes: Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing. Immediately call a poison center or doctor/physician. Wash contaminated clothing before reuse.

Storage and Disposal

Storage: Store at ambient temperature. Store in a closed container. Keep this container tightly closed. Store in original container. Do not allow water or other chemicals to be introduced into contents of container. Do not contaminate water sources with equipment washwater, spray disposal wastes or by cleaning of equipment. Do not store near feed or food products. Do not use or store near open flame.

Disposal: Triple rinse or equivalent during mixing and loading. Recycling decontaminated containers is best option for disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler, visit www.acrecycle.org. Decontaminated containers may also be disposed of in a sanitary landfill. Dispose of contents/container in accordance with local and national regulations.

General Information

Spray Guard is a multi-functional water conditioning and deposition enhancing tank mix adjuvant.

Spray Guard conditions tank mix water to prevent hard water minerals from antagonizing glyphosate and other pesticides.

Spray Guard technology has been proven to increase glyphosate activity.

The additional sequestering and buffering agents in Spray Guard provide water conditioning properties while adjusting pH to a neutral range.

The humectants in Spray Guard slow the drying time of spray droplets to minimize evaporation and improve absorption into the leaf cuticle.

Spray Guard contains viscosity modifiers to reduce the formation of small, driftable spray fines while maintaining a range of droplet size that is retained on the targeted surface. Many factors affect off target spray drift such as boom height, nozzle type and configuration, spray pressure, temperature, wind and thermal inversions. Managing spray drift involves a comprehensive approach to the spray application.

Mixing Recommendation

Fill the tank 1/2 full with water and begin agitation. Add required amount of Spray Guard and complete filling of water. Add pesticide and other tank mix partners after Spray Guard is in solution. Continue agitation throughout application.

Not For Aquatic Use

Directions For Use

Spray Guard is intended for use with products registered for agricultural, horticultural, turf, ornamental, industrial and non-crop use.

Spray Guard should be added to the diluted spray solution prior to the addition of any pesticides.

Ground and Aerial Rates: 1 to 3 quarts per 100 gallons of water.

Spray Guard contains the equivalent of 2 pounds ammonium sulfate per gallon.

First Aid

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

If In Eyes: Hold eye open and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

NOTICE: READ CAREFULLY

Limited Warranty and Disclaimer

The Manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use. Neither Manufacturer or Seller makes any other express or implied warranties, including without limitation, the implied warranty of merchantability or fitness for a particular purpose, all of which are expressly disclaimed. Any damages arising from a breach of the Manufacturer's warranty shall be limited to direct damages, shall not include indirect or consequential damages such as loss of profits or values, and shall not, in any event, exceed the purchase price of this package of product. This Limited Warranty does not extend to the use of the product inconsistent with the label instructions, warnings or cautions, or use of the product under abnormal conditions such as drought, excessive rainfall or other weather conditions or factors that are beyond the control of the Manufacturer and/or the Seller. Any written or verbal statements or agreements cannot vary the terms of this Limited Warranty and Disclaimer. No employee or agent of the Manufacturer or Seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.
