Information regarding the contents and levels of metals in this product is available on the internet at: <http://www.aapfco.org/metals.html>

DIRECTIONS FOR USE

Use only as directed.

TMC SeedStart ZincMo is a proprietary micronized formulation of Zinc Oxide and Potassium along with Molybdenum intended for use as a seed applied nutrient. It is compatible with most commercially available seed treatments and is intended for use on cereals, legumes and corn. Not for use with other oxidizing materials or any phosphate containing fertilizers. Do not apply to damaged seed or seed with low germination test scores. Before using this product, consult your local McGregor Seed Care Representative for additional use instructions and mixing order.

RATE APPLICATION

Seed Treatment: Wheat, Barley, Oats, Rye, and Trit: 2-8 oz./cwt.
Dry beans, peas, lentils, garbanzos, and large seeded vegetables: 2-8 oz./cwt.
Corn: 4-8 oz./cwt.
Other crops: consult your McGregor representative.

SEED TREATMENT APPLICATION RECOMMENDATIONS

Dilution: Slurry rates may need to be adjusted to maintain 40% water ratios.
Additives such as Treat Safe are recommended to limit dust off.
Regular cleaning of atomizers, treating cups and spray nozzles is recommended.

TREATMENT METHOD:

Slurry Application: TMC SeedStart ZincMo can be used with standard seed treatment application equipment. Ensure uniform application.
Injection System: Water should be added to TMC SeedStart ZincMo before injecting. Compatibility and stability testing is recommended before applications are made.

CONDITIONS OF SALE

The information contained hereon is believed to be accurate and reliable. Buyer/User acknowledges and assumes all liability from use of this material. Follow directions and recommendations carefully. Rates and methods of application, timing, weather, soil, water, turf, plant, crop condition, prior control material usage and "acts of God" are beyond the control of the Sellers and Manufacturers.

STORAGE CAUTIONS

Avoid direct or excessive sun, heat, fire or frigid exposure. Decomposition may occur at temperatures above 225°F (107°C). May be corrosive to some dispersal materials over time. Exercise care when storing or dispensing product.

HANDLING CAUTIONS

Exercise care when applying product. May be harmful if swallowed or inhaled. Keep out of children's reach. Avoid eye contact and prolonged, repeated contact with skin. May cause eye, membrane and skin irritation. Wash all contact areas thoroughly after handling.
