

PROLONG N

MAXIMIZE YOUR NITROGEN. MAXIMIZE YOUR PROFIT.

NITROGEN STABILIZER FOR USE WITH
UAN, AQUA, AND LIQUID UREA

**Extend nitrogen
availability
during key
growth stages**

- Keeps more nitrogen available in the root zone for available plant uptake and improved use efficiency.
- Inhibits and slows the conversion of ammonium to nitrate (nitrification) which leads to the loss of nitrogen through leaching and denitrification.
- Dual action for above ground and below ground nitrogen defense.
- Protects nitrogen to help maximize investments while increasing yield potential through harvest.

RETAINS
20-35 LBS.
MORE
NITROGEN IN
THE ROOT
ZONE

YIELDS 6-9%
